NAICS CODES

335122 - Commercial, industrial and institutional electric lighting fixture manufacturing.

335129 - Manufacturing electric lighting fixtures (except residential, commercial, industrial, institutional and vehicular lighting) and non-electric lighting equipment.

333413 - Industrial and commercial fan and blower and air purification equipment, manufacturing air washers (ie. air scrubbers).

Established in 1993 and located in Auburn, CA, 1st Source Lighting is an American manufacturer of superior quality LED and germicidal UV-C lighting. Current product offerings include a complete line of energy efficient, LED lighting for a wide variety of commercial and industrial applications. 1st Source also manufactures germicidal UV-C lighting for surface and air disinfection of harmful viruses and bacteria. Quotations, photometrics, energy calculations, ROI analysis and project support decisions are available upon request.

DESIGN TO APPLICATION ENGINEERING With over 25 years of lighting and design experience, 1st Source has manufactured some of the most innovative lighting in the world. Our meticulous engineering and experienced craftsmanship produce very dependable, energy efficient lighting geared for site specificity and optimal efficiency.

HIGH OUTPUT LED LIGHTING 1st Source specializes in high output linear LED lighting and custom retrofit solutions for schools, warehouses, federal facilities, manufacturing, gymnasiums and a variety of outdoor applications. On time manufacturing capabilities allows 1st Source to meet large scale project demands of any scope.

GERMICIDAL UV-C LIGHTING 1st Source brings 25 plus years of lighting experience to the germicidal UV-C lighting market. Using the highest quality UV dedicated components, 1st Source offers portable UV-C light towers, wall and portable air purification units and overhead troffer fans for up to 99.9% sanitation against viruses, mold and bacteria.

MADE IN THE USA 1st Source Lighting proudly supports the Buy American Act (BAA). We are a United States manufacturer dedicated to maintaining the majority of our total fixture costs from materials purchased from U.S. suppliers. All fixtures manufactured by 1st Source Lighting are made in the USA. Our entire operation is based in Auburn, CA.
