Product Description:

Pole Mount
This pole mount was designed to complement the fixture's aerodynamic shape.

Photocontrol
Optional photocontrol allows for further energy saving.

Proprietary Optical Control
Specifically designed lens Type III, IV, and V allow architects maximum freedom to design any layout without restraint. These optics are engineered for maximum light output.

Integrated Heatsink
Integrated cooling fin provides excellent thermal dissipation. This design allows the fixture to have extremely long lifetime hours.

Bi-Level Sensor Control
Fixture has the option to add an occupancy sensor allowing bi-level dimming and harvest dimming. This provides maximum savings for the end-user.

Easy access to the control switch for a range of CCTs and wattages.

Door Frame
The door frame is designed with the installer in mind. It has a simple to use hinge access so allowing installers to be hands-free when entering electrical compartment. This saves time and money.

Wattage Selectable

COLOR TUNABLE 3000K-5000K

Product Description:

This slick and modern luminaire has been designed to be powered efficiently. With a beautiful slimline design along with one of the highest lumen performance on the market, this versatile fixture can be used as an area light.
